ATTN: Justin Hill Office of the Attorney General	202 North Ninth Street Richmond, Virginia 23219 Phone: (804) 786-2071

Justin Hill,

My court appointed attorney Fred Smith had attempted to contact me on June 22, 2023. He spoke with my mother over the phone, she explained the situation; and his position on the appeals matter was that I can continue with my appeals after that timeout period, that is what I call it, a timeout period. Fred didn't call it a timeout period but I call it that as that I believe is the right term to call the six months no filing period in the state courts.

He wanted me to notify you about this, since Fred Smith was the one who asked and I had agreed with him verbally on me not filing for six months in the state court, assuming it means all courts in the Commonwealth of Virginia, but not including the United States District Courts, United States Courts of Appeals, and United States Supreme Court.

I am glad that the Commonwealth/Appellees' does not oppose some kind of continuance or delay until after this timeout period had concluded. If you want, you can ask Fred Smith for an affidavit if that is necessary for the Court of Appeals of Virginia to continue the appeals or delay the appeals until after October, 2023.

My mother did witness me not having all pleadings in the UPS envelope from your office. I did not receive your motions but I did receive your opposition brief and e-filing paper of what was electronically filed. I did wanted her to email that information to you that she was also aware that I

did not receive all motions. So I do ask that the continuance also allows me to explain to the Court of Appeals of Virginia that the three appeals this year are not the same as the appeals filed last year. Judge Greer's orders this year where he claimed to have jurisdiction but denied my motions. He claimed not to have jurisdiction in the orders which were appealed last year. So there are issues I do have with any mass consolidation request for appeal cases when the appeals filed this year are of different substance. Like the difference being that Judge Greer did not invoke or argue that there was lack of jurisdiction to have acted on my motions filed this year in 2023.

I do wish to have a counter response to your motion for consolidation, at least of the three appeals filed this year. I did receive the court order where they were not acting on your consolidation motion until the record had been received where it can be reviewed by the clerks. I am sure the Clerks and judges may see differences in the type of motions which were denied this year and last year, differences in the court orders appealed from this year and last year. They may not completely agree with your request in the motion for mass appeal cases consolidation, at least with three appeals.

Also I should at least be allowed to file one brief for my remaining three appeals this year. That is all I need to file as the issues in all three appeals filed this year do deserve a consolidation of those appeal cases. Even if all appeal cases are consolidated, I should have a right to still file one more brief for the appeals filed this year since there was no brief filed this year for the three appeals. Hopefully you understand the issues I have with a consolidation of all appeals. Evidence this year wasn't on record last year.

Anyways, I have plenty of time during the timeout period to think of what the assignments of error should be. I think the reason why I was targeted with a contempt of court charge over telling the truth about the judge involved in the Circuit Court, was because I think these appeals have a better chance of succeeding than the ones last year. That is because I had caught the corrupt former Chief of Police G. E. Cassady and Glen Andrew Hall the Corrupt Commonwealth Attorney destroying evidence in violation of two court orders from the Circuit Court and the court order from the General District Court. Crimes were committed and perpetuated by Glen Andrew Hall, the Commonwealth Attorney for the City of Martinsville.

That is why these three appeals are important and why I risked jail time and a contempt charge over the three appeals, is because I HAVE THE PROOF, I HAVE THE EVIDENCE. Evidence I did not have last year, proof I did not have last year. I could speculate and make conspiracy theories about Martinsville, but I didn't have the solid proof that evidence was ILLEGALLY COVERED UP by Glen Andrew Hall. I knew once Rob Fincher the new Police Chief of the City of Martinsville had admitted that the body-camera footage had been deleted because it was NOT MARKED AS EVIDENCE when they knew of the prosecution against me, well Glen A. Hall aka Andy Hall knew of the prosecution against me, he prosecuted me yet he didn't inform Martinsville Police Department about the criminal prosecution which Robert Jones of Martinsville Police Department had pushed for. They were all in on this criminal conspiracy, they knew body-camera footage had been recorded. They VIOLATED my BRADY RIGHTS, they violated my right to all discovery materials as the COURT ORDERED.

You see why the judge wanted me charged with CONTEMPT, because I had solid proof that I didn't have before, solid evidence from Chief of Police Rob Fincher of Martinsville when he took over in January, 2023.

I also informed the U.S. Probation Officer on the real reason I was charged with contempt of court by Judge Greer. My federal Probation Officer who investigated my indecent exposure charge in 2018, didn't receive all evidence pertinent to the investigation by the United States Probation Office, which is a federal law enforcement office of the United States Judiciary. Jason knows that he was deceived, that he never got a chance to review over the body-camera footage. So it wasn't just court orders being violated. Criminal laws in the United States were violated by Glen Andrew Hall. Under 18 U.S. Code § 1519 - Destruction, alteration, or falsification of records in Federal investigations and bankruptcy, Glen Andrew Hall knowingly had evidence (body camera footage, admitted by Rob Fincher, Chief of Police) he did not disclose to the Defendant or Defendant's lawyer (myself as Appellant); and the Commonwealth Attorney Andy Hall and Martinsville Police under G. E. Cassady (corrupt Police Chief) did not disclose to ANY FEDERAL INVESTIGATORS including Jason McMurray a United States Probation Officer. Andy Hall did not disclose to the United

States Attorney Office the body-camera footage and acted like it didn't exist by calling me delusional. Yeah I was diagnosed wrongfully with delusional disorder in federal court over disagreements and issues while I was in jail in 2014 being messed with by the jail guards and some weird things that went on by the court officials. There was some dirty stuff there. Anyways, because of that label of "delusional disorder" they thought me talking about the body-camera footage was a product of a delusion and didn't believe me.

WELL, ROB FINCHER, Chief of Police admitted that there were recordings from Martinsville Police Department concerning my name, aka the body-camera footage proving beyond doubt that it did exist, that I was NOT delusional. Now they have to cover that up by charging me with contempt of court for telling the truth about Judge Greer protecting them.

I couldn't prove this under corrupt former Police Chief G. E. Cassady and corrupt former City Attorney Eric Monday, worked hand in hand to keep the corruption going where I am the victim. Once those corrupt bastards left office, I was able to obtain evidence and proof I could not obtain previously. Rob Fincher saved my life from disarray by bringing me the truth, by admitting that the destroyed evidence had once existed.

So Justin, be aware of the corruption and criminality involving Appellees' in my case, involving Martinsville. There is a reason why Justice for Brian D. Hill of USWGO Alternative News talks about my case. There is a reason why I created the Documentary entitled: The DEEP STATE can Frame You - the Documentary. There is a reason my family uploaded this to the world.

My family gave me the link to the Rumble video:
https://rumble.com/v2ozhp6-the-deep-state-can-frame-you-the-documentary.html

If I can get popular in any way, shape, or form, I can defeat Judge Greer and expose the two tiered justice system, same system that Donald John Trump is under right now in the communist court of New York City. The two tiered court system is WRONG, and is unAmerican. It is not constitutional for a judge to operate a two tiered justice system. WRONG!!!

Wrong!!!! Wrong!!!!! That is not a fair trial and is not constitutional.

The Qanons know about my situation. I do not need the internet to know this. I have a friend who has spoken with me over the phone, who I am allowed to text, and they are Qanons involved with other people including Roger Stone who I had text messaged begging for a presidential pardon (due to the judicial corruption and malfeasance) and he had almost succeeded. They are aware that I am suffering under the two-tiered justice system in Martinsville. They are aware of Fred Smith, they are aware of the procedural due process being violated here when I cannot file for six months for telling the truth. My Documentary will continue getting more and more popular. I had been mailing DVD copies of my documentary to big name people and at some point I will have the verification that they received it. The Deep State and the federal frame up against me in 2012-2013. Tulsi Gabbard has a copy, I am trying to make sure that Robert F. Kennedy has a copy who agreed with John F. Kennedy who vowed to splinter the CIA in Virginia into a thousand pieces and scatter them to the winds. I am asking for investigations into the CIA/NSA tampering with my judicial cases and possibly for other dirty things they may have done to me including potential murder with carbon monoxide poisoning which I had proof of thanks to Pete Compton of ACE Chimney and Wildlife in Bassett, Virginia. I ain't afraid to die in clearing my name and proving my innocence to every criminal charge I had ever received where I have actual proof that shows I am innocent and was wrongfully convicted. When I have evidence, or seen things in federal discovery papers, anything which shows I am innocent, I am not afraid to die in proving this to the world. The Deep State can go to hell, the corruption can go to hell too. I am not letting them hold me hostage over my right to appeal in the Court of Appeals of Virginia. I am tired of being hostage by the Deep State. My mom voted for Donald Trump, my grandparents voted for Donald Trump in 2016 because Tim Kaine is DIRTY, so is Hillary Clinton. They are dirty people and corrupt politicians. Donald Trump didn't drain the swamp before he left office as promised. Hopefully one day the swamp will be drained. Tim Kaine doesn't care about my autism, we know it.

I have enough evidence to prove that the Circuit Court in Martinsville operates a TWO-TIERED Justice System where the laws don't apply to the Commonwealth but only apply to me. That is unconstitutional under the

Fourteenth Amendment of the United States Constitution. I can prove this in these three appeals. The record proves it. It proves that Rob Fincher admitted the destruction of the body-camera footage and the lawyer refusing to comply with court orders. That is CONTEMPT, yet I am charged with contempt but not the contemnor Glen Andy Hall.

So I will give you a few assignments of error I plan on arguing after October of 2023. You did wanted me to notify you ahead of time of potentially what assignments of error I plan on bringing up.

1. Martinsville Circuit Court aka the Trial Court refused to charge prosecutor Glen Andrew Hall with contempt and refuses any kind of action or sanction against the contemnor when evidence surfaces from a new Police Chief that evidence was unlawfully deleted and illegally deleted while knowing that the United States Probation Office was investigating Brian's indecent exposure charge. They didn't get all of the evidence, because some of it was COVERED UP by Glen Andrew Hall and others involved in Martinsville Police Department. They charged Brian with a criminal litigation and yet allowed evidence to be deleted and not marked as evidence in violation of multiple court orders. Then the Trial Court refuses to hold Glen Andrew Hall accountable when the contempt allegations were proven by a letter from Rob Fincher and FOIA Officer of Martinsville. Refusing to follow or obey a court order is contempt. So the court had erred by not enforcing it's own court orders when evidence recently surfaces proving the allegations by Appellant. Didn't ask questions, just deny another motion.

2. It is a proven fraud when Officer Robert Jones admitted in federal court under penalty of perjury that Appellant was not obscene, yet charged Brian with making an obscene display. The same officer who charged Brian with making an obscene display said under oath in federal court that Brian was not obscene. He didn't know that the lab tests were deleted from the chart, officer was ignorant. Clearly the charge on September 21, 2018 was fraudulent or wrongful or both. Evidence was covered up. Appellant proved it, and the Trial Court had decided to deny the motions asking for relief. The Trial Court at least should have had an obligation to hold a hearing, a show cause hearing, to ask about Appellant's claims and supporting affidavits, and compel Officer Robert Jones to answer a few questions under oath in the

Trial Court about what he said at the federal court about Brian not being obscene. If he affirms what he said in the federal court in 2019, then this proves the entire basis for the ARREST WARRANT was FALSE, and no criminal conviction should sustain over a false arrest charge. Fraud on the court to such an extent where I had every right to accuse Judge Greer of what I had accused him of in those notices of appeal. I did nothing criminal here when I accused the judge of fraud on his court. It was Glen Andrew Hall and Officer Robert Jones who destroyed evidence or at least allowed it and deceived the U.S. Probation Office which I also have proof of in the federal court case where even the U.S. Attorney didn't object that Martinsville Police deceived them, ON RECORD, Robert Jones knowingly lied under oath or affirmation in the ARREST WARRANT. They knowingly deceived the United States Probation Office and not even the U.S. Attorney objected to those arguments that they were deceived by Glen Andrew Hall and G. E. Cassady the former Police Chief.

Crimes were committed here, the proof is in the record in my federal case and in the trial court record, and I have proven it on the record in the three appeals this year. My appeals this year are full of merit, and should have warranted better treatment by the Circuit Court. I want to check the record and be sure that it isn't tampered with. If everything is in order, I will file my brief after my timeout period of not filing anything except in the federal courts.

A continuance is warranted here, until after the timeout period on Friday, October 13, 2023.

As an attorney you are aware that I cannot file in the state courts at this time. Arguably, If you were not allowed to file for six months in the case and you begged me for a continuance or delay until you were allowed to file again, I would file a motion doing so to give you your Due Process right. I don't care that your opposing counsel. A real lawyer understands the Constitutional right to procedural due process of law and substantive due process of law. The right to be heard, the right to file in court.

Criminal conspiracy or not involved in my case, my constitutional rights are what is at stake here. It is very important. Fred Smith knows this,

he is a lawyer. If he had reviewed the entire record of what caused me to lash out at Judge Greer with fraud allegations, he understands why if he had read the FOIA response letter from Rob Fincher and the FOIA officer, the three page FOIA response letter. If he read that Officer Jones said that I was not being obscene in federal court, it can easily be confirmed by simply having him appear in the Circuit Court to answer a few questions, and that can easily fix any potential issues of any hearsay. Officer Jones did admit I (Brian) was not obscene in the General District Court but there was no transcript so I didn't have that. It's clear that my appeals this year have more teeth and evidence than last year. I have so much evidence, I am swimming in it. A continuance is best for these appeals.

A continuance is best because more and more my criminal conviction is a fraud in itself. If I can prove even half of the elements were a fraud, does that warrant me having a criminal record???

When the judge realizes my appeals may have teeth and started charging me with contempt for telling the truth based on new evidence proving a two-tiered justice system, then the lawyers work to prevent me from my appeals??? Does that not violate procedural due process to tie my hands and hold me hostage??? Then racketeer by demanding legal fees out of my SSI money to pay for a criminal case based entirely on fraud and covered up evidence??? The U.S. Probation Office being deceived by Martinsville???

Brian D. Hill

God bless you,
